Mid Term Examinations - October 2026

Date: 05/10/2026 **Time:** 02:00 PM - 03:30 PM

Course Code: CSE2269 **Course Name:** Operating Systems

Semester: Fifth Semester **Max. Marks:** 50 **Weightage:** 50%

CO - Levels	CO1	CO2	CO3
Marks	44	16	30

PART A: Answer Following Questions. 10 M

Q.N.	Questions	M	CO	BT
1	**Differentiate between kernel mode and user mode**	2	CO1	BT2
2	**Define system calls. Name any two types of system calls**	2	CO1	BT1
3	**How is the process differed from the program?**	2	CO2	BT1
4	**What is Inter process communication (IPC)**	2	CO2	BT1
5	**Define Thread. Give its types**	2	CO2	BT1

PART B : Answer Any 1 Following Questions. 10 M

Q.N.	Questions	M	CO	BT
6	Sketch different Operating system structures explain the Advantages and disadvantages	10	CO1	BT2
7	Describe the role of system programs in an Operating Systema and explain the functions of a linker and loader in program execution with a neat diagram	10	CO1	BT2

PART C: Answer Any 1 Following Questions. 10 M

Q.N.	Questions	M	CO	BT
8	Illustrate the objective and characteristics of Operating System	10	CO1	BT2
9	Elucidate the concept of system calls. And explain types of system calls with suitable examples	10	CO1	BT2

PART D: Answer Any 1 Following Questions. 10 M

Q.N.	Questions	M	CO	BT
10	Explain the concept of Process and explain process state transition with diagram and also Explain Process Control Block with diagram	10	CO2	BT2
