(CO1,CO2,CO3) [Application]

**45. READ THE FOLLOWING PASSAGE AND ANSWER THE FOLLOWING QUESTIONS**

Generally, men have been keeping some birds and beasts from times immemorial for pleasure. They are said to be domesticated pets. It is one kind of a favorite hobby with some people to keep these pets.

The names of the domesticated animals are the cow, the dog, the buffalo, the horse, the sheep, the goat, the cat, the donkey, the monkey, the elephant, etc. But I like the cat very dearly.

The cat is a beautiful four-footed domestic animal. It has two eyes, two erect ears, and a short tail. It has a round head and a flat nose. It has sharp claws and teeth. Its body is covered with soft fur. It has a soft pad under its feet. So it can move without making any sound.

Its eyesight is so keen that it can see well even in the dark. Cats are of various colors. Some are white and some are black, some are yellow, some are gingery red, some are of mixed colors. They are found all over the world. It looks like a small tiger. So, it is called the 'aunt of the tiger'.

The cat is very eased loving. It is kept for its lovely appearance. It is very clean inhabit. It likes a warm or hot bed. Sometimes it sleeps on the same bed with its master. It kills mice, insects, and rats. It is not only cunning but also a thief. When it gets chance, it eats fish and meat and drinks milk stealthily. It scratches when it is annoying. It gives birth three or four kittens at a time.

It is fond of milk, fish, and flesh. It also likes to eat rice, curry and such other things.

The pet is very useful to us. It is a good hunter. It does us a great deal of good by killing mice, worms, and insects. So, we should love and fondle it.

I like it very much and treat it very dearly. Often, I take it up on my lap and caress it by stroking its soft body. It is necessary to take great care of the pet and keep it in good condition. Otherwise, it falls ill and dies. So, we should treat it kindly.

List out the numbers from the passage and translate to kannada

- a. What is colour in kannada? List out colours from the passage and translate to kannada
- b. List out parts of the body from the passage and translate to kannada
- c. What is animal in kannada? list out Domestic and Wild animals and translate to kannada
