                                                      (CO5) [Knowledge]

PART B

ANSWER ALL THE QUESTIONS   **(2 X 10 = 20M)**

6. 'The e-commerce scenario in India has been evolving by large over the past few years and it is significantly changing how people here. Rising internet users & usage of mobile phones have definitely contributed to the upside. It has impacted the way we communicate and companies do business at large.' In the light of the given statement discuss the historical evolution of E-Commerce in India with the help of day-to-day examples of E-Commerce.

                                                      (CO2) [Comprehension]

7. 'The temendous growth of internet and online transactions has raised many regulatory as well as legal issues'. Justify the statement by mentioning the legal issues related to E-Commerce.

(CO4) [Comprehension]

PART C

ANSWER THE FOLLOWING QUESTION   **(1 X 20 = 20M)**

8. In India, the concept of E-Governance provides facilitation rather than regulation. State governments are focusing on the creation of network of e-services and e-administration. The basic idea of it is to provide basic services using indigenous information technology. The present models in India are mostly community based and utility driven and in some states they are financed by the Gram Panchayat'. In view of the above, discuss the following -
a)Concept of E-Governance
b)Priniciples of good E-Governance

(CO1) [Application]
